The Mayor opened up the meeting with the introduction of Caleb Davidson with Georgia Mountain Regional Commission.

Mr. Davidson is working on examples of the Amphitheater seating for the city park. A detailed copy of the amphitheater dimension, as well as a material sheet that shows the decorative block was presented to the Council for review. The Council stated that they would like to see railing at the top of the seating as well as steps that goes between the aisles. Ms. Bush stated that she would like to see artificial grass in the seating area in lieu of real grass.

Mr. Davidson was going to make the changes as discussed and come back with a draft copy in a couple of days.

Mayor Presley asked Mr. Davidson if he could meet with them at the park early one morning to discuss the details.
